TECHNICAL WRITING

CORE COMPETENCIES

- API & developer documentation (REST/OpenAPI)
- Architecture and data flow documentation
- AWS/Azure cloud infrastructure
- Docs-as-code (Git-based)
- Versioning and audit-ready compliance
- Knowledge base governance
- Process improvement and workflow optimization
- Document and content management
- Content strategy and technical documentation
- Process mapping and flowchart development

SKILLS

- **Enterprise Platforms:** Azure, AWS, ServiceNow, Salesforce, Dynamics 365, and SAP
- **Content Architecture & Structured Authoring:** DITA XML, DocBook, Markdown
- **Documentation Platforms & Tools:** MadCap Flare, oXygen XML, Confluence, ServiceNow Knowledge, Git-based docs-as-code
- **API & Developer Documentation:** RESTful APIs, OpenAPI/Swagger, Postman, Apigee, JSON, XML, FHIR
- **Cloud, DevOps & Automation:** Azure DevOps, GitHub, CI/CD pipelines, YAML, PowerShell
- **Cross-functional Collaboration:** Slack, MS Teams, Miro, Jira, Google Workspace, OneNote
- **Governance & SSO:** Okta, IAM, Ping Identity, Azure Active Directory, Auth0

SUMMARY

Principal Technical Writer and Documentation Architect with over 16 years of expertise designing and delivering comprehensive developer and platform documentation for industry leaders such as *Microsoft*, *Amazon*, *Mastercard*, and *Cisco*. Expert in cloud-native solutions, RESTful APIs, IAM frameworks, and docs-as-code methodologies. Adept at designing scalable documentation architectures and CI/CD-integrated workflows that strengthen content consistency, improve discoverability, and enable secure self-service across cloud, hybrid, and on-premises environments.

EXPERIENCE

Lead Technical Writer 03/2023 - Present

Insight Global (HP, Sony, Ascension)

Houston, TX

- Implemented a centralized document repository and version control framework in Confluence and ServiceNow, improving document retrieval efficiency by 40% and ensuring compliance with organizational standards.
- Established document governance processes including naming conventions, metadata standards, and structured review cycles.
- Reduced duplication and outdated records by consolidating fragmented documentation into a controlled enterprise knowledge-based system (KBS).

Senior Technical Writer

01/2023 - 03/2023

US Tech Solutions (Amazon)

San Francisco, CA

- Authored infrastructure design and AWS cloud deployment documentation for Agile Hub/DevOps teams, enabling standardized application management and scalable cloud operations.
- Monitored and documented code performance and system metrics using AWS CloudWatch, improving operational visibility, reliability, and release readiness.

Senior Technical Writer

08/2022 - 12/2023

Moofwd (Mastercard)

Monmouth Junction, NJ

- Developed and maintained technical program management documentation aligned with organizational standards and audit requirements.
- Created repeatable review and approval processes improving document accuracy and reducing rework.

Lead API Technical Writer

06/2022 - 08/2021

PayQuicker

Rochester, NY

- Led API documentation design and governance using OpenAPI/Swagger, JSON, and Postman.
- Established standards and workflows ensuring accuracy, consistency, and maintainability of payment platform service.

Senior API Writer

04/2022 - 07/2022

Flatiron Health

Flatiron, NY

- Documented HL7® FHIR® standards and implementation details to support interoperability of clinical and administrative healthcare data across systems
- Created onboarding and reference content to help developers prepare for and successfully integrate with Flatiron's Fast Healthcare Interoperability Resources (FHIR®) APIs

EDUCATION

PROFESSIONAL CERTIFICATES

- Certified Professional Technical Communicator (CPTC)
- Microsoft Certified Systems Engineer (MCSE)
- Adobe Professional Content Creator (APCC)
- Foundations of AI and Machine Learning
- AI and Machine Learning Algorithms and Techniques

COURSEWORK

- Computer Information Science
- GPA: 4.0 | Dean's List | 114 Hours

EXPERIENCE

Senior Technical Writer 07/2021 - 04/2022
Aditi Consulting (Microsoft) Redmond, WA

- Authored infrastructure design docs for Agile Hub/DevOps teams. Included specs, guidelines, and integration paths enhancing system reliability, scalability, and usability.
- Streamlined document workflows using standardized templates and macros to support time-sensitive releases.

Technical Writer 04/2019 - 05/2020
Tranzeal Incorporated (ServiceNow) San Jose, CA

- Created best practices and frameworks for Power Automate and Dynamics integrations. Led documentation governance to ensure quality, accuracy, and compliance.
- Managed multiple concurrent documentation projects, delivering 100% of releases on schedule.

Lead Technical Writer 05/2016 - 08/2018
CollabNet (Cloud Automation Solutions) Austin, TX

- Created cloud automation and orchestration docs for SaaS and enterprise, including architecture, workflows, and guides and ensured clarity for all audiences.
- Developed IaC and DevOps docs, including AWS CloudFormation, Terraform, and CI/CD pipelines, enhancing reproducibility and consistency.

Staff Technical Writer 10/2013 - 04/2016
Prosource (BP) Houston, TX

- Improved offshore deployment speed by 25% through authoring detailed operations guides for oil and gas monitoring software.
- Improved team efficiency by compiling comprehensive workflow documentation and training materials.

Lead Technical Writer and Editor 06/2007 - 07/2013
Cisco San Jose, CA

- Led the creation and ongoing maintenance of enterprise and developer documentation for Tidal Enterprise Scheduler (TES), supporting complex integrations with platforms such as SAP, PeopleSoft, and Microsoft Exchange.
- Developed SaaS and cloud-focused documentation covering agents, adapters, and integration frameworks, with step-by-step workflows, configuration guidance, and practical examples.

Principal 01/1996 - Present
JR&R Consulting, LLC Houston, TX

- Managed 250+ controlled documents across multiple concurrent projects while meeting 100% of release deadlines.
- Reduced document retrieval time by 30–50% through structured metadata and taxonomy implementation.
- Managed, authored, and maintained API documentation for enterprise platforms including Schlumberger Avocet. Leveraged Confluence, Jira, GitHub, OpenAPI, C#, and XML to produce clear, developer-centric documentation supporting platforms such as Shutterfly and Gimmel ERP-Link Suite.
- Delivered guides, workflow references, and instructions for Thermo Fisher HoloLens/Sample Manager and Oasis ICs, enhancing adoption and efficiency.
- Led documentation for complex graphic cards, including 3dfx Interactive's Voodoo Graphics (CISC x86), producing detailed technical and developer documentation on architecture, drivers, and performance optimization.
- Coordinated document reviews across engineering, compliance, and product teams.
