SKILLS

CORE EXPERTISE

- **API & Content Architecture:** OpenAPI, Swagger, REST, Postman, JSON, XML, FHIR
- **Cloud & DevOps:** Azure DevOps, CI/CD, GitHub, YAML, PowerShell
- **Enterprise Platforms:** Azure, AWS, ServiceNow, Salesforce, Dynamics 365, SAP
- **Programming & Markup Languages:** Python, C#, Java, C++, HTML, Markdown

TECHNICAL SKILLS

- **Content Architecture & Engineering:** DITA XML, DocBook, Markdown, Structured Authoring, Knowledge Base Architecture, Governance Models
- **Documentation Platforms:** MadCap Flare, oXygen XML, Confluence, ServiceNow Knowledge, Git-based Docs-as-Code
- **API & Developer Documentation:** OpenAPI, Swagger, Postman, Apigee, REST, JSON, XML, FHIR
- **Cloud, DevOps & Automation:** Azure DevOps, GitHub, CI/CD, YAML, PowerShell
- **Languages:** Python, C#, Java, C++, HTML, Markdown
- **Enterprise Platforms:** Azure, AWS, ServiceNow, Salesforce, Dynamics 365, SAP

EDUCATION

PROFESSIONAL CERTIFICATES

- Certified Professional Technical Communicator (CPTC)
- Microsoft Certified Systems Engineer (MCSE)
- Adobe Professional Content Creator (APCC)

SUMMARY

Principal Technical Writer and Documentation Architect with 16+ years of experience designing and delivering developer, platform, and IAM documentation for global enterprises including Microsoft, Mastercard, Cisco, HP, and ServiceNow. Expert in documenting cloud-native platforms, REST APIs, and identity-integrated systems using OpenAPI/Swagger, Markdown, and docs-as-code workflows to improve developer onboarding, integration speed, and platform adoption. Proven leader in building scalable documentation architectures, knowledge systems, and CI/CD-aligned workflows that standardize content delivery, improve discoverability, and support secure, self-service enterprise platforms across cloud, hybrid, and on-prem environments.

EXPERIENCE

- 

Technical Writer 03/2023 - Present
Houston, TX

 - Built and scaled an enterprise Knowledge Base System (Confluence, ServiceNow) improving discoverability, consistency, and cross-team collaboration
 - Standardized documentation frameworks, templates, and workflows, reducing duplication and enabling consistent delivery across teams
- 

Senior Technical Writer 08/2022 - 12/2023
Princeton, NJ

 - Developed and maintained technical program management documentation aligned with organizational standards and audit requirements
 - Consolidated fragmented process documentation into a unified knowledge system using Azure DevOps and Agile practices
- 

API Technical Writer 07/2021 - 11/2022
Redmond, WA

 - Authored developer-facing API documentation and Markdown-based help content for Microsoft healthcare platforms (FHIR)
 - Created reusable templates and documentation workflows in Confluence to standardize API documentation across teams
- 

Lead API Technical Writer 06/2020 - 07/2021
Rochester, NY

 - Designed comprehensive API reference documentation using OpenAPI/Swagger, JSON, and Postman
 - Improved developer onboarding by delivering clear end-to-end API workflows and examples
- 

Technical Writer (ServiceNow) 04/2019 - 05/2020
San Jose, CA

 - Developed developer best practices and documentation pathways for Power Automate and Dynamics integrations
 - Led document governance and review processes to ensure quality and compliance
- 

Lead Technical Writer 05/2016 - 08/2018
Austin, TX

 - Developed a tailored information architecture (DITA) framework designed to optimize content reuse, streamline translations, and enhance publication processes for technical documentation.
 - Leveraged XML Author to develop comprehensive topics and maps.

EDUCATION

COURSEWORK

Completed undergraduate coursework in Computer Information Science

St. Edward's University Austin, TX

- GPA: 4.0
- Dean's List

EXPERIENCE

	Sr. Technical Writer BP (Prosource) • Improved offshore deployment speed by 25% through authoring detailed operations guides for oil and gas monitoring software. • Compiled extensive workflow documentation and training materials designed to support technical personnel and customer support teams.	10/2013 - 04/2016 Houston, TX
	Lead Technical Writer and Editor Cisco • Led documentation for Tidal Enterprise Workload Automation (TWA/TES) supporting SAP, PeopleSoft, and Exchange integrations • Produced SaaS and cloud-delivered documentation for agents and adapters used by global customers	06/2007 - 07/2013 San Jose, CA
	Principal JR & R Consulting LLC • Led documentation programs for Fortune 500 clients including Amazon, BP, and Microsoft, aligning IAM, platform, and developer documentation strategies with engineering, security, and product roadmaps to support business and platform objectives. • Led API documentation, identity integrations, and platform initiatives for cloud systems, enabling secure access and self-service adoption. • Created documentation boosting onboarding and adoption by reducing friction and improving developer experience. • Created scalable documentation for developer ecosystems and enterprise integrations. Ensured consistent delivery across cloud, on-premises, and hybrid environments with sustainable governance and reuse.	01/1996 - Present Houston, TX
