TECHNICAL WRITER

CORE COMPETENCIES

- API & developer documentation (REST/OpenAPI)
- Architecture and data flow documentation
- AWS/Azure cloud infrastructure
- Knowledge base governance
- Technical Diagram Creation
- Process improvement and workflow optimization
- SOP & Operational Documentation: Policy and Risk Management
- Content strategy and technical documentation
- Process mapping and flowchart development
- Accessibility & Compliance Documentation (Section 508, WCAG standards)
- Technical writing clarity (active/passive voice optimization)

SKILLS

- **Enterprise Platforms:** Azure, AWS, ServiceNow, Salesforce, Dynamics 365, and SAP
- **Content Architecture & Structured Authoring:** DITA XML, DocBook, Markdown
- **Documentation Platforms & Tools:** MadCap Flare, oXygen XML, Confluence, ServiceNow Knowledge, Git-based docs-as-code
- **Process & Workflow Documentation:** Biltly, Visio, Miro
- **API & Developer Documentation:** RESTful APIs, OpenAPI/Swagger, Postman, Apigee, JSON, XML, FHIR
- **Cloud, DevOps & Automation:** Azure DevOps, GitHub, CI/CD pipelines, YAML, PowerShell
- **Cross-functional Collaboration:** Slack, MS Teams, Miro, Jira, Google Workspace, OneNote
- **Governance & SSO:** Okta, IAM, Ping Identity, Azure Active Directory, Auth0

Principal Technical Writer | API, Cloud & DevOps | Documentation Architect

📞 281-253-4510 @ julialdegan@yahoo.com

SUMMARY

Principal Technical Writer and Documentation Architect with 16+ years of experience delivering enterprise and developer-focused documentation across API platforms, cloud infrastructure, and DevOps environments for industry leaders such as *Microsoft, Amazon, Salesforce, Mastercard, ServiceNow, BP*, and Cisco. Expert in translating complex architectures, including RESTful APIs, AWS and Azure systems, and IAM frameworks, into clear, scalable documentation that supports implementation, governance, and adoption. Proven track record of leading documentation standardization, designing content frameworks, and improving knowledge management systems to enhance efficiency, compliance, and cross-team alignment.

EXPERIENCE

Lead Technical Writer

03/2023 - Present

Insight Global (HP, Sony, & Ascension)

Houston, TX

- Implemented a centralized document repository and version control in Confluence and ServiceNow, improving retrieval efficiency by 40% and ensuring compliance.
- Established document governance processes, including naming conventions, metadata standards, and review cycles.
- Designed sequence diagrams and system architectures to define workflows, align stakeholders, and support foundational business process development.
- Utilized Bitly to manage and track shortened links, improving visibility and engagement metrics across communications.
- Reduced duplication and outdated content by consolidating documentation into a controlled enterprise knowledge base system (KBS).

Senior Technical Writer

01/2023 - 03/2023

US Tech Solutions (Amazon)

San Francisco, CA

- Authored infrastructure and AWS deployment documentation for Agile/DevOps teams, enabling standardized and scalable cloud operations.
- Monitored and documented code performance and system metrics using AWS CloudWatch, improving operational visibility, reliability, and release readiness.

Senior Technical Writer

06/2022 - 12/2023

Moofwd (Mastercard)

Monmouth Junc., NJ

- Developed and maintained technical program management documentation aligned with organizational standards and audit requirements.
- Established SOP, policy, and risk management documentation standards and workflows, ensuring consistent, compliant, and maintainable documentation for payment platform services.

Lead API Technical Writer

06/2022 - 06/2023

PayQuicker

Rochester, NY

- Designed API documentation, business processes, and sequence/workflow diagrams using OpenAPI/Swagger, JSON, and Postman to improve onboarding.
- Created high-level design documents to align architecture, integrations, and business requirements.

Senior API Writer

02/2022 - 11/2022

Flatiron Health

Flatiron, NY

- Translated complex HL7® FHIR® standards into clear API documentation, accelerating integrations and improving cross-platform data reliability.
- Led API documentation standardization, establishing templates, and review workflows to improve clarity and alignment.

EDUCATION

PROFESSIONAL CERTIFICATES

- Certified Professional Technical Communicator (CPTC)
- Microsoft Certified Systems Engineer (MCSE)
- Adobe Professional Content Creator (APCC)
- Foundations of AI and Machine Learning
- AI and Machine Learning Algorithms and Techniques

COURSEWORK

- Kilgore College | St. Edward's University | University of Houston
- GPA: 4.0 | Dean's List | 114 Credit Hours

EXPERIENCE

Senior Technical Writer	05/2021 - 02/2022
Aditi Consulting (Microsoft, Salesforce)	Redmond, WA
• Developed infrastructure and integration documentation for Agile DevOps and Salesforce teams, improving system reliability and scalability. • Standardized documentation workflows using reusable templates and macros to accelerate releases.	
Technical Writer	04/2018 - 05/2021
Tranzeal Incorporated (ServiceNow)	San Jose, CA
• Developed best practices for Power Automate, Dynamics, and business processes using Bitly, leading documentation governance for quality and compliance. • Produced diagrams, system visuals, and workflow illustrations using Visio to enhance understanding of technical systems.	
Lead Technical Writer	05/2016 - 08/2018
CollabNet (Cloud Automation Solutions)	Austin, TX
• Created cloud automation and orchestration docs for SaaS and enterprise, including architecture, workflows, and guides and ensured clarity for all audiences. • Developed IaC and DevOps docs, including AWS CloudFormation, Terraform, and CI/CD pipelines, enhancing reproducibility and consistency.	
Staff Technical Writer	10/2013 - 04/2016
Prosource (BP)	Houston, TX
• Developed high-level API architecture designs and documented business processes to support scalable integrations and cross-team alignment. • Increased team efficiency by developing workflow documentation, training materials, and API integration guidance to support implementation and adoption.	
Lead Technical Writer and Editor	06/2007 - 07/2013
Cisco	San Jose, CA
• Led enterprise and developer documentation for Tidal Enterprise Scheduler (TES), supporting integrations with SAP, PeopleSoft, and Microsoft Exchange. • Established SOP, policy, and risk documentation standards using enterprise governance practices to ensure compliance and consistency.	
Principal	01/1996 - Present
JR&R Consulting, LLC	Houston, TX
• Managed 250+ controlled documents across multiple concurrent projects while meeting 100% of release deadlines. • Reduced document retrieval time by 30–50% through structured metadata and taxonomy implementation. • Authored and maintained API docs for Schlumberger Avocet, Shutterfly, and Gimmel ERP-Link using Confluence, Jira, GitHub, OpenAPI, C#, and XML. • Delivered guides, workflow references, and instructions for Thermo Fisher HoloLens/Sample Manager and Oasis ICs, enhancing adoption and efficiency. • Led documentation for graphics cards, including 3dfx Voodoo Graphics , covering architecture, drivers, and performance optimization. • Led cross-functional document reviews and applied standardization techniques to enhance consistency, accuracy, and regulatory compliance.
