

Julia Degnan, CPTC, MCSE

Sr. Technical Writer | Documentation Architect | API, Cloud & DevOps | Change Management

📞 281-253-4510 @ juliaidegnan@yahoo.com 📍 Houston, Texas

PROFESSIONAL SUMMARY

Senior Technical Writer and Documentation Architect with 20+ years leading documentation strategy, governance, and execution for API, cloud, and enterprise systems. Specializes in ITIL-based knowledge management and bringing structure to large, inconsistent content sets. Experienced working with Agile and DevOps teams across fintech, healthcare, enterprise software, and energy.

EXPERIENCE

Lead Technical Writer

Insight Global (HP, Sony, & Ascension) 03/2023 - Present

Houston, TX

- Built ITIL-aligned documentation governance in ServiceNow and Confluence, cutting retrieval time by 40%.
- Designed sequence diagrams and system architecture visuals to clarify workflows and get stakeholders aligned earlier in the process.

Senior Technical Writer

US Tech Solutions (Amazon) 01/2022 - 03/2023 San Francisco, CA

- Wrote infrastructure and AWS deployment docs for Agile/DevOps teams, standardizing cloud operations references.
- Used AWS CloudWatch to track and document system metrics, improving release readiness and operational visibility.

Senior Technical Writer

Moofwd (Mastercard) 06/2021 - 03/2022 Monmouth Junc., NJ

- Maintained technical program management documentation for a payment platform, keeping content audit-ready and compliant.
- Built SOP, policy, and risk documentation workflows that made it easier for teams to maintain accuracy without starting from scratch.

Lead API Technical Writer

PayQuicker 06/2019 - 06/2021 Rochester, NY

- Designed API docs, sequence diagrams, and workflow visuals using OpenAPI/Swagger and Postman to improve developer onboarding.
- Created high-level design documents connecting architecture decisions to business requirements for cross-functional teams.

Senior API Writer

Flatiron Health 02/2019 - 11/2019 Flatiron, NY

- Translated HL7® FHIR® standards into readable API documentation that sped up integrations and reduced back-and-forth between teams.
- Led API documentation standardization, building templates and review workflows that improved clarity across the board.

Senior Technical Writer

Aditi Consulting (Microsoft, Salesforce) 05/2018 - 02/2019

Redmond, WA

- Developed infrastructure and integration documentation for DevOps and Salesforce teams, supporting faster and more reliable releases.
- Built reusable templates and macros that standardized documentation workflows and took repetitive work from developers.

Certifications

- Society for Technical Communication (STC)
- Certified Professional Technical Communicator (CPTC)
- Microsoft Certified Systems Engineer (MCSE)
- Foundations of AI and Machine Learning
- Machine Learning Algorithms and Techniques
- Adobe Professional Content Creator
- Microsoft Office User Specialist (MOUS)

Education

- Kilgore College
- St. Edwards University
- University of Houston
- GPA: 4.0 | Dean's List | 114 Credit Hours (CIS)

EXPERIENCE

Technical Writer

Tranzeal Incorporated (ServiceNow) 05/2017 - 05/2018

San Jose, CA

- Led documentation governance for Power Automate, Dynamics, and business processes, ensuring quality and compliance.
- Created Visio diagrams and workflow visuals to make complex system behavior easier to follow for technical and non-technical audiences.

Lead Technical Writer

CollabNet (Cloud Automation Solutions) 04/2016 - 05/2017

Austin, Tx

- Wrote cloud automation and orchestration docs, including architecture overviews and workflow guides, for SaaS and enterprise audiences.
- Wrote IaC and DevOps docs covering CloudFormation, Terraform, and CI/CD pipelines to support consistent environment builds.

Staff Technical Writer

Prosource (BP) 10/2013 - 04/2016 Houston, TX

- Designed high-level API architecture documentation and business process guides to support integrations across teams.
- Developed training materials and API integration guidance that reduced ramp-up time for implementation teams.

Lead Technical Writer and Editor

Cisco 06/2007 - 07/2013 San Jose, CA

- Led enterprise and developer documentation for Tidal Enterprise Scheduler (TES), including SAP, PeopleSoft integrations.
- Established SOP, policy, and risk documentation standards that held up through audits and org changes.

Principal

JR&R Consulting, LLC 1996 - Present Houston, United States

- Managed 250+ controlled documents across concurrent projects, hitting 100% of release deadlines.
- Built governance frameworks and change processes that improved document control, audit readiness, and lifecycle tracking.
- Authored and maintained API docs for *Schlumberger Avocet*, *Shutterfly*, *Gimbal ERP-Link* using Confluence, Jira, and OpenAPI.
- Cut document retrieval time by 30-50% through metadata structure and taxonomy design.
- Delivered end-user guides and workflow references for *Thermo Fisher HoloLens/Sample Manager Oasis*, improving adoption across IC teams.
- Led documentation for *3dfx Voodoo Graphics* cards, covering architecture, drivers, and performance optimization.
- Authored integration documentation for Oracle and other enterprise platforms, supporting cross-system implementations and adoption.
