

Julia Degnan, CPTC, MCSE

Sr. Technical Writer | Documentation Architect | API, Cloud & DevOps | Change Management

📞 281-253-4510 @ julialdegnan@yahoo.com 📍 Houston, Texas

PROFESSIONAL SUMMARY

Senior Technical Writer & Documentation Architect with 20+ years in developer documentation for APIs, cloud platforms, and enterprise systems. Expert in B2B SaaS environments, docs-as-code workflows (Markdown, Git, Jira), and CI/CD pipelines. Trusted cross-functional partner to engineering, product, and DevOps teams, delivering scalable documentation that drives developer experience and business growth.

EXPERIENCE

Lead Technical Writer

Insight Global (HP, Sony, & Ascension) 📅 03/2023 - Present 📍 Houston, TX

- Worked within a docs-as-code environment using Markdown, Git, and Jira to manage version-controlled documentation.
- Collaborated with engineers and product managers to document SaaS-based systems and APIs.
- Designed sequence diagrams and system architecture visuals to clarify workflows and get stakeholders aligned early in the process.
- Implemented automation and AI-assisted reviews to identify documentation gaps and inconsistencies.

Senior Technical Writer

US Tech Solutions (Amazon) 📅 01/2022 - 03/2023 📍 San Francisco, CA

- Created AWS infrastructure and deployment docs for Agile/DevOps teams, establishing consistent cloud operations references.
- Used AWS CloudWatch to track and document system metrics, improving release readiness and operational visibility.

Senior Technical Writer

Moofwd (Mastercard) 📅 06/2021 - 03/2022 📍 Monmouth Junc., NJ

- Maintained technical program management documentation for a payment platform, keeping content audit-ready and compliant.
- Built SOP, policy, and risk documentation workflows making it easier for teams to maintain accuracy.

Lead API Technical Writer

PayQuicker 📅 06/2019 - 06/2021 📍 Rochester, NY

- Produced developer-focused API documentation for a B2B SaaS platform, improving onboarding and integration.
- Ensured documentation aligned with CI/CD release cycles and version control practices.

Senior API Writer

Flatiron Health 📅 02/2019 - 11/2019 📍 Flatiron, NY

- Translated complex healthcare data standards (HL7® FHIR®) into practical API documentation built for developer workflows.
- Worked directly with engineering teams to validate accuracy and improve usability of technical content.

AREAS OF EXPERTISE

- **API & Developer Documentation:** REST APIs, OpenAPI, Swagger, Apigee, JSON, XML, Postman, HL7 FHIR
- **Developer & System Tools:** Docker, Kubernetes, Terraform, CloudFormation, CI/CD pipelines (GitHub Actions, Azure DevOps, Jenkins), Visio, Lucidchart, Draw.io, Python-based workflows
- **Documentation Operations & Change Management:** Documentation governance, content lifecycle management, version control, review workflows, knowledge base management, taxonomy & metadata
- **Cloud, DevOps & Automation:** Azure DevOps, GitHub, CI/CD, YAML, PowerShell, Infrastructure as Code
- **Platforms & Integration:** Azure, AWS, ServiceNow, Salesforce, Dynamics 365, SAP, Oracle
- **Performance & Observability Tools:** AWS CloudWatch, Azure Monitor, Datadog, Splunk, Grafana, Postman, JMeter
- **Content Architecture & Structured Authoring:** MadCap Flare, DITA XML, oXygen XML Editor, DocBook, Markdown, Confluence, SharePoint, Paligo, Adobe FrameMaker, LMS platforms, Remote Training Systems
- **Information Architecture & Content Strategy:** Taxonomy and metadata design, documentation governance, Git/GitHub, Jira, Confluence, ServiceNow, SharePoint, Visio, Miro
- **Governance & Identity:** Okta, Ping Identity, Azure Active Directory, Auth0, IAM/SSO
- **Technical Languages & Standards:** Markdown, DITA XML, DocBook, YAML, JSON, XML, Python, PowerShell, OpenAPI/Swagger, REST, HL7 FHIR

EXPERIENCE

Senior Technical Writer

Aditi Consulting (Microsoft, Salesforce)

📅 05/2018 - 02/2019 📍 Redmond, WA

- Developed infrastructure and integration documentation for DevOps and Salesforce teams, supporting faster and more reliable releases.
- Built reusable templates and macros that standardized documentation workflows and took repetitive work from developers.

Technical Writer

Tranzeal Incorporated (ServiceNow) 📅 05/2017 - 05/2018 📍 San Jose, CA

- Led documentation governance for Power Automate, Dynamics, and business processes, ensuring quality and compliance.
- Created Visio diagrams and workflow visuals to make complex system behavior easier to follow for technical and non-technical audiences.

Lead Technical Writer

CollabNet (Cloud Automation Solutions) 📅 04/2016 - 05/2017 📍 Austin, Tx

- Documented cloud-based SaaS platforms, DevOps workflows, and IaC tooling including CI/CD pipelines, CloudFormation, and Terraform.
- Improved documentation accuracy by 100% in collaboration with DevOps and platform engineering teams.

Staff Technical Writer

Prosource (BP) 📅 10/2013 - 04/2016 📍 Houston, TX

- Designed high-level API architecture documentation and business process guides to support integrations across teams.
- Developed training materials and API integration guidance that shortened implementation team onboarding.

Lead Technical Writer and Editor

Cisco 📅 06/2007 - 07/2013 📍 San Jose, CA

- Led enterprise and developer documentation for Tidal Enterprise Scheduler (TES), including SAP, PeopleSoft, and Oracle integrations.
- Established SOP, policy, and risk documentation standards that held up through audits and org changes.

Principal

JR&R Consulting, LLC 📅 1996 - Present 📍 Houston, United States

- Managed 250+ controlled documents across concurrent projects with 100% on-time delivery.
- Built governance frameworks and change processes that strengthened audit readiness and document lifecycle tracking.
- Authored API docs for *Schlumberger Avocet*, *Shutterfly*, and *Gimmel ERP-Link* using Confluence, Jira, and OpenAPI.
- Created end-user guides and workflow references for *Thermo Fisher HoloLens/Sample Manager Oasis* to support IC team onboarding.
- Led documentation for *3dfx Voodoo Graphics* cards, covering architecture, drivers, and performance tuning.
- Authored integration docs for Oracle and other enterprise platforms to support cross-system implementations.

CERTIFICATIONS

- Society for Technical Communication (STC)
- Certified Professional Technical Communicator (CPTC)
- Microsoft Certified Systems Engineer (MCSE)
- Foundations of AI and Machine Learning
- Machine Learning Algorithms and Techniques
- Adobe Professional Content Creator
- Microsoft Office User Specialist (MOUS)

EDUCATION

- Kilgore College | St. Edwards University | University of Houston
- GPA: 4.0
- Dean's List
- 114 Credit Hours (CIS)
